PRINCIPAL CONSULTANTS

CORE SERVICES

01 Conceptual and FEED Studies

02 Detailed Engineering

03 Process Simulation

04 HAZID, HAZOP and Safety Reviews

05 SIL and LOPA Assessment

06 EC&I Engineering

07 Project Management

08 Commissioning and Start-up

09 Brownfield and Debottlenecking

10 Cost Estimation and Due Diligence

WHERE WE ADD VALUE

● SENIOR DELIVERY

The principal named in the proposal performs and reviews the work.

● FIT FOR PURPOSE

Engineering matched to the decision, schedule, asset and operating reality.

● GLOBAL REACH

Remote-capable delivery from Bangkok across Asian and European time zones.

HOW WE ENGAGE

A senior team from first question to final deliverable.

01 DEFINE

Clarify the decision, design basis, interfaces, deliverables and review gates.

02 ENGINEER

Develop, simulate, challenge and document the fit-for-purpose solution.

03 DELIVER

Issue controlled outputs, close comments and stay engaged through implementation.

PRINCIPAL CONSULTANTS

Experience applied directly to your scope

JC

Jose Campins

PROCESS ENGINEERING | 20+ YEARS

FEED, process simulation, FPSO and MOPU topsides, detailed design.

DS

Darren Strengers

PROJECT MANAGEMENT | 25+ YEARS

International project, construction, contractor and supply-chain delivery.

RB

Robin Charles Binner

EC&I ENGINEERING | 30+ YEARS

IEC 61511 lifecycle, SIL and LOPA, C&E matrices and control systems.

IB

Ian Bissett

PROCESS ENGINEERING | 34+ YEARS

Chartered Chemical Engineer and IChemE Fellow with operator-side experience.
